Mawlana Bhashani Science and Technology University
Lab-Report

Report No : 11
Experiment name : Implementation of FIFO page replacement Algorithm
Course code : ICT-3110
Course title : Operating System Lab.
Date of Performance :
Date of Submission :28/09/2020

Submitted by

Name: Md Sohanur
ID: IT-18011
3rd year 1st semester
Session: 2017-18
Dept. of ICT
MBSTU.

Submitted To

Nazrul Islam
Assistant Professor
Dept. of ICT
MBSTU.

i) What is FIFO page replacement Algorithm?

FIFO page replacement Algorithm:

Consider the following reference string: 7, 0, 1, 2, 0, 3, 0, 4, 2, 3, 0, 3, 2.
Assume demand paging with three frames.

Using FIFO page replacement algorithm –

7	0	1	2	0	3	0	4	2	3	0	3	2
7	7	7	2	2	2	2	4	4	4	0	0	0
	0	0	0	0	3	3	3	2	2	2	2	2
		1	1	1	0	0	0	3	3	3	3	3

ii) Implementation of FIFO page replacement algorithm in C?

The implementation of FIFO page replacement algorithm in C is given below:

Code:

```
//implementation of FIFO page replacement in c++

#include<bits/stdc++.h>

using namespace std;

int pageFaults(int pages[], int n, int capacity)

{

   unordered_set<int> s;

   queue<int> indexes;

   int page_faults = 0;

   for (int i=0; i<n; i++)
```

```
{
    if (s.size() < capacity)
    {
        if (s.find(pages[i])==s.end())
        {
            s.insert(pages[i]);
            page_faults++;
            indexes.push(pages[i]);
        }
    }
    else
    {

        if (s.find(pages[i]) == s.end())
        {
            int val = indexes.front();
            indexes.pop();
            s.erase(val);
            s.insert(pages[i]);
            indexes.push(pages[i]);
            page_faults++;
        }
    }
```

```
    }
    return page_faults;
}
int main()
{
    int pages[] = {7, 0, 1, 2, 0, 3, 0, 4,
                   2, 3, 0, 3, 2};
    int n = sizeof(pages)/sizeof(pages[0]);
    int capacity = 3;
    cout <<"The total no. of page faults: "<< pageFaults(pages,
n, capacity)<<endl;
    return 0;
}
```

Output:

```
The total no. of page faults: 10

Process returned 0 (0x0)   execution time : 0.275 s
Press any key to continue.
```

Conclusion: This lab help us to learn fifo page replacement algorithm.I solve this algorithm by c languafe.I future i can use this algorithm where its need
